

THIRD WORKSHOP ON MATTER AND RADIATION

May 21-22 nd ,2025
LRPRIM Laboratory
University of Batna 1

Workshop Chair

Pr. Abdelhamid BOULDJEDRI

Honorary Chairs

Pr. Abdesslam DIF

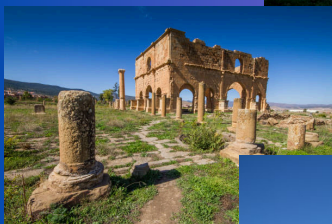

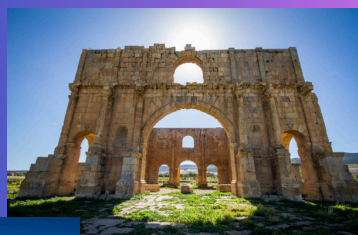

Rector of the University of Batna 1

Pr. Hamada HABA

Dean of faculty of Matter Sciences, University
of Batna 1

Batna, located in northeastern Algeria, is a vibrant city known for its rich history and scenic surroundings. Nestled in the Aures Mountains, it serves as a gateway to the ancient Roman city of Timgad and boasts stunning landscapes that blend nature and history. As a growing academic and cultural hub, Batna offers a unique setting for scientific exploration and collaboration, making it an ideal location for hosting this workshop. With its blend of tradition and modernity, participants will enjoy both the intellectual and cultural experiences that Batna has to offer.

Address

LRPRIM Laboratory
University of Batna 1

This conference addresses all the issues related to the physics of radiation from matter at the atomic and nuclear scale, as well as those concerning radiation-matter interaction. We aim to bring together experts in the field in an exceptional and friendly natural setting conducive to numerous and rich scientific exchanges.

Objectives of the workshop

- Establish national collaboration between researchers and research laboratories.
- Exchange of ideas.
- Training of our doctoral students.

Topics

Plasma and Thermo-Nuclear Fusion

Atomic , Molecular and Laser Physics

Nuclear Physics and Astrophysics

Nuclear Techniques

High Energy Physics and quantum information

Material Physics

Collaboration with research centers is essential for advancing scientific knowledge and innovation. By partnering with these institutions, we can enhance our research capabilities, share resources, and leverage expertise.

Invited speakers From
CRNA , CRNB CRND CDTA

Scientific Committee

- Pr. Yazid Delenda, Chairperson, Univ Batna 1
- Pr. Sid Abdelaziz, Member, Univ Batna 1
